ALKALINIZER CARTRIDGE

4 / 4 / 2025

ALKALINIZER CARTRIDGE

**What is it and what is it
used for?**

Alkaline water has a pH higher than 7.

**It is associated with several important
health benefits.**

TARGET AUDIENCE

- Sportspeople & Fitness enthusiasts.
- People with gastrointestinal problems.
- People concerned about the effects of aging.

BENEFITS OF ALKALINE WATER

Health Benefits of Alkaline Water:

1. **Hydrates** much faster than regular water.
2. Boosts **red blood cell production** due to its high oxygen concentration.
3. **Reduces blood acidity** levels by helping to balance the body's pH.
4. **Eliminates toxins from the body** by combating free radicals due to its composition.
5. **Reduces intestinal problems**, such as **gastritis** and **colon issues**, due to its ability to eliminate toxins and acids from the body, as well as its antioxidant properties.
6. Improves **circulatory processes** in the body, thanks to its mineral content.
7. Acts as a natural antioxidant, regenerating cells and **preventing skin aging**.
8. **Prevents the growth of pathogens**, such as bacteria and viruses, so they multiply in environments with low pH, not in alkaline environments.

LOGICOAQUA
a KINETICO brand

Nota: Scientific studies validating these benefits have not been published yet.

INDUSTRIAL APPLICATIONS

As we know, when treating water with reverse osmosis membranes, we achieve a reduction in pH by 1 or 2 points, but at times, it can cause a slight metallic taste.

To balance out this issue, it is recommended to install a remineralizing filter: **The acidity correction filter.**

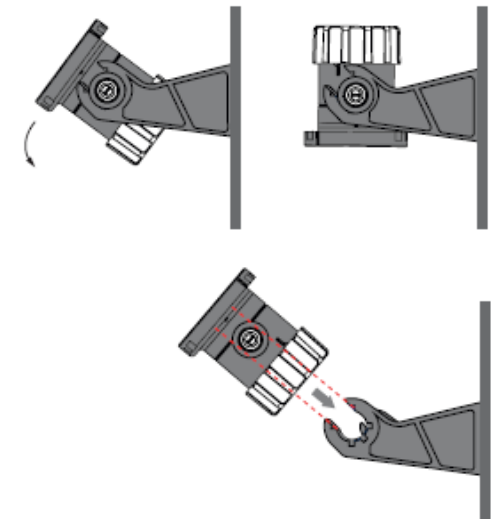

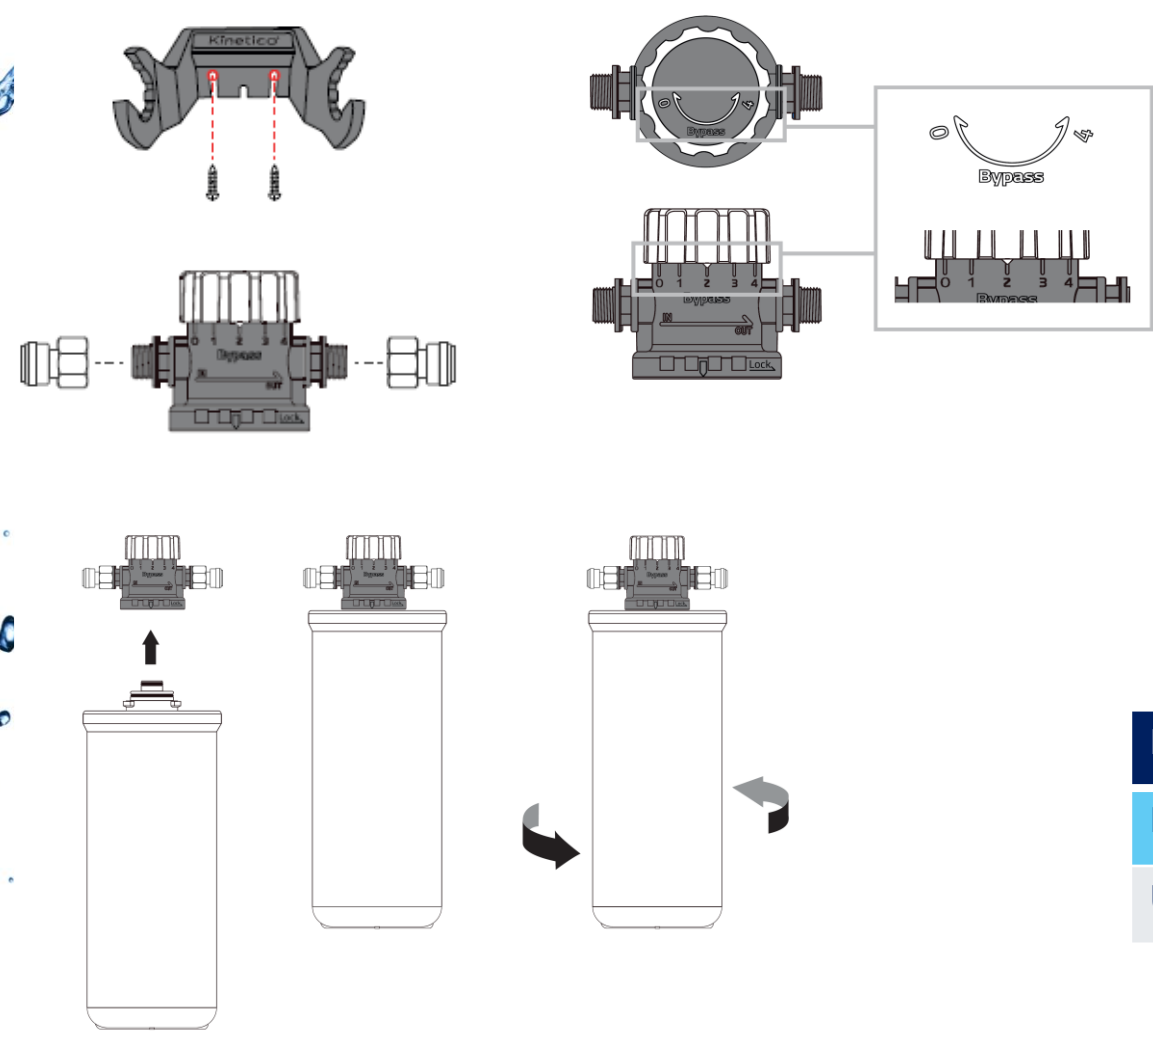

The **LOGICO AQUA** alkalizing filter **allows customization of the acidity** level according to the customer's preferences.

It adjusts the pH of **direct flow systems** according to the **customer's preference.**

ALKALIZING FILTER HEAD

BYPASS	1	2	3	4	5
Filtered Water	100%	90%	75%	65%	50%
Unfiltered Water	0%	10%	25%	35%	50%

FEATURES

DESCRIPTION

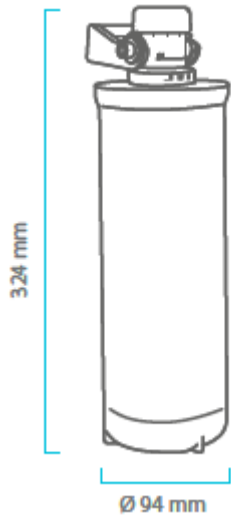

Alkalinity booster filter. Ideal filter for consumers of alkaline water, which raises the pH to values up to 9.5.

It is also a suitable filter for increasing the pH of acidic, osmosed or low mineralised water.

The 5-position head allows you to adjust the output pH to your wishes.

SPECIFICATIONS

CONNECTION	Bayonet connection for its head.
VESSEL MATERIAL	Polypropylene.
FILTER MEDIA	Coconut shell carbon and pH increaser formula.
INSTALLATION POSITION	Vertical.
LIFE SPAN	8000 liters.
MAXIMUM FLOW	2 liters/minute
PRESURE (MAX-MIN)	0.7 - 8 BAR
TEMPERATURE (MAX-MIN)	40 °C ~ 4 °C

IDENTIFICATION

LOGICOAQUA ALKALINIZER CARTRIDGE

(Ref. 980583)

LOGICOAQUA FILTER HEAD
(Ref. 981144)

LogicalAqua filter head, lubricated material.
Plastic with M3/8 connection (includes adapter for 3/8 tube).
Five working positions (0*-1-2-3-4).
