

Benefits and Savings full house

Highly recommended for extending the lifespan of all household appliances, reducing the use of detergent and fabric conditioner, and eliminating the need for anti-scaling products. Thanks to its Upflow (counter-current) regeneration system, it also helps reduce salt consumption. In addition, it protects your plumbing system and helps maintain its efficiency

Cost savings

In addition to reducing your use of detergents, fabric softeners, and anti-scaling treatments, this model also reduces salt consumption due to its counter-current (Upflow) regeneration technology.

Damage caused by scaling at home

Limescale can cause countless issues at home. Some of them are visible, others not so obvious, but if you live in a hard water area, many of these problems may already be familiar to you.

This system is ideal for protecting your appliances: It helps extend their service life, reduces detergent and softener usage, and eliminates the need for anti-scaling products. It also protects your entire installation, keeping it efficient for longer.

WATER SOFTENER 42

ADVANCED TECHNOLOGY FOR SOFT WATER

The 42-litre Full House is a high-tech water softener.

It is specifically designed to remove scaling from the water supply in large households and the HORECA sector (hotels, restaurants, cafés, gyms, and dry-cleaning shops).

WLG (B-60326279) is a member of the Water Quality Association.

The marketing of water treatment equipment and household appliances, as well as the design and provision of non-regulated training related to the technology of the equipment marketed, are certified and comply with the UNE - ISO 9001 standard for WLG (B-60326279).

WLG (B-60326279) is a member of Aqua España, which belongs to Aqua Europa (Federation of European national associations).

WLG (B-60326279) has been granted Authorised Economic Operator (AEO) authorisation number: ESAEOP1800000806 and the authorisation came into force on 15/02/2018.

INNOVATIONS FOR OPTIMAL PERFORMANCE

Equipped with advanced features:

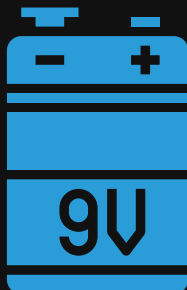

- Extended use when needed — the system automatically detects when it is necessary to initiate a micro-regeneration cycle.
- Holiday mode — if unused for 7 days, the unit automatically performs a rinse cycle to prevent stagnant water.
- New water-saving programme — ideal for homes with access to both mains water and well water, allowing smarter resource management.

Recomendado para familias numerosas de 5 a 8 miembros, según el consumo de agua medio y la dureza del agua de su zona.

Easily adaptable to various spaces.

Battery backup operates on a 9V battery in the event of a power cut, ensuring continuous operation.

TECHNICAL FEATURES

FULL HOUSE 42 42 has been designed to deliver high performance while making the most of limited space.

Product code:	960614
Weight:	45 Kg
Dimensions:	1.254 x 320 x 489 mm
Resin volume:	42 litres
Operating flow rate:	2'2 m3/h
Maximum flow rate:	3.6 m3/h
Maximum hardness:	100 °
Water consumption per regeneration:	138 litres*
Ambient temperature:	4 - 43 °
Water temperature:	1 - 39 °
Minimum dynamic pressure:	2,1 bar
Maximum static pressure:	8,6 bar

WATER CAPACITY TABLE BY HARDNESS LEVEL*:

Hardness	15°HF	20°HF	25°HF	30°HF	35°HF	40°HF	50°HF	60°HF	70°HF	80°HF	90°HF	100°HF
Litres	14.500	14.800	8.700	7.250	6.200	5.400	4.300	3.600	3.100	2.700	2.400	2.100

*Para un consumo de sal de 96 gr/L.

Smart control

This model features a multilingual electronic programmer, allowing operation in various languages: English, Romanian, Dutch, Polish, Turkish, Russian, Spanish, Italian, German, French, and Hungarian.

Safety & Durability

FULL HOUSE 42 includes an advanced safety system and premium-quality materials to ensure long-lasting performance:

- Dual-safety brine valve to prevent blockages and ensure optimal operation.
- High-strength plastic to ensure a long lifespan.
- High-capacity silica-based resin to improve water flow and optimise the softening process.
- Reduced water usage during regeneration.
- Low salt consumption.
- Micro-regeneration in just 20 minutes.

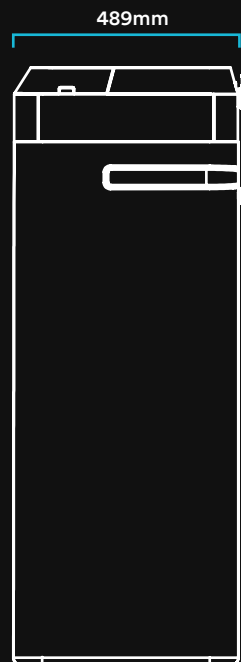

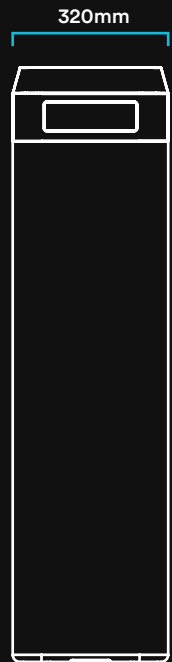

Reduced water usage during regeneration.

Low salt consumption.

Micro-regeneration in just 20 minutes

HEALTH

Bathing in softened water leaves your skin feeling naturally smoother and softer.

ENERGY SAVINGS

Enhances the efficiency of hot water and heating systems, helping your appliances perform like new for longer.

BEAUTY

With softened water, there's no need for moisturising creams or hair conditioners. Skin and hair retain their natural shine and softness.

CLEANLINESS

Helps you keep your home spotless. Without scaling, taps, showers, shower screens and bathroom fittings stay clean, shiny, and like new.

PROTECTION

Softened water prevents discolouration of fabrics, helping clothes retain their colour, softness, and overall quality over time.

COST SAVINGS

This model uses less salt and reduces detergent and fabric softener usage by up to 50%. No need to buy anti-scaling products.
