

ENVIRONMENTAL POLICY

Kinetico Spain, S.L.U., a company dedicated to the sale of water treatment equipment and household appliances and non-regulated training related to the technology of the equipment sold, is committed to the environment and the sustainable development of its actions, so that its activity has a minimal impact on it. All of the company's processes are designed to prioritise the responsible use of resources.

In order to reduce the environmental impact of Kinetico Spain, S.L.U.'s activities, the following actions are carried out:

- Design of water treatment equipment that minimises water consumption.
- Promotion of the HORECA channel for the progressive reduction of plastic packaging, thereby encouraging water treatment at the point of consumption.
- Minimisation of the use of plastic packaging in logistics.
- Smart lighting systems in facilities to reduce electricity consumption.
- Responsible use of air conditioning, lighting and water.
- Minimising the use of office supplies such as paper and recycling them.
- Joining ECOTIC as a waste electrical and electronic equipment (WEEE) management entity. Joining ECOEMBES as an entity committed to eco-design and recycling of packaging and containers for domestic appliances sold.
- Phasing out of physical printed manuals for marketed equipment. Instead, they are made available to end users in a cloud accessible via QR code.

This ENVIRONMENTAL POLICY has been communicated to all staff, with the aim of integrating it into their daily work and motivating them to improve the performance of their tasks.

The ENVIRONMENTAL POLICY is reviewed periodically to ensure its continued suitability.
